WORK SESSION AGENDA

September 24, 2015
Thursday
7:00 p.m.
Lansing City Hall

Call To Order:

- I. Unified Development Ordinance
- II. Equipment Replacement

Adjournment

TO: Tim Vandall, City Administrator 
FROM: Sarah Bodensteiner, City Clerk 
DATE: September 17, 2015
SUBJECT: Work Session Summary

- I. Unified Development Ordinance**
 - The Planning Commission and Staff will be present to facilitate a discussion regarding a Unified Development Ordinance.
 - II. Equipment Replacement**
 - Staff will be present to review and discuss the Equipment Replacement Policy and Schedule.
 - III. Adjournment**
-

TO: Tim Vandall, City Administrator 
THRU: John W. Young, Director of Public Works 
FROM: John Jacobson, Community Development Superintendent 
DATE: September 18, 2015
SUBJECT: Unified Development Ordinance

The question that is pertinent to the joint meeting between the City Council and the Planning Commission is whether the City Council wants to proceed with the development of a Unified Development Ordinance (UDO) or keep and update the existing Zoning Ordinance.

The Planning Commission has reviewed a draft UDO and has made a determination that a combination of multiple policies (accomplished through a UDO) is more user friendly and easier to navigate for the average developer or citizen than the current process.

In essence, a UDO combines sections of the Technical Specifications, the Building Code, City Code, and Zoning Ordinance to produce a comprehensive document that navigates typical development processes:

- ✓ Clears up ambiguous language in the current ordinance
- ✓ Incorporates multiple policies in several different locations, i.e. City Code, Building Code, Technical Specifications, into a singular document
- ✓ Better conformance to proposed Zoning Districts in the current Comprehensive Plan
- ✓ Improvement to "point of use" customers and more comprehensive in nature

Currently, there is budget authority to accomplish an update to the Zoning Ordinance in 2016. The Planning Commission has been in discussions over the last several years contemplating the drastic change in land use districts proposed in the last several Comprehensive Plans and how to implement those changes.

As a product of those discussions and based on anticipated need, a UDO was proposed. Staff drafted a potential UDO and submitted it to the Planning Commission for review and comment. As a product of those discussions, it became apparent that a congruence of opinion between both bodies would be necessary to move forward on any potential action in the future.

While the actual draft is too cumbersome to present for this meeting, it is available at City Hall and Public Works for review. Staff will be available to answer questions and provide support for the discussion.

WORKSHEETS-ON-WORKSHEETS-ON-THEM #

TO: Tim Vandall, City Administrator

FROM: Beth Sanford, Finance Director

DATE: September 16, 2015

SUBJECT: Equipment Replacement

Staff will review the Equipment Replacement Policy and the Equipment Replacement schedule.

Lansing KANSAS

Equipment Replacement Policy

I. PURPOSE

The purpose of this Equipment Replacement Policy is to propose a vehicle replacement plan for the City of Lansing to follow, and the specific vehicle and equipment needs and requirements of the City. This policy reflects the vision of the City of Lansing to create a multi-year vehicle and equipment replacement plan that will serve as a guide in providing direction to meet City needs. This is a working document that will be modified to reflect changes in the City's needs as they occur.

City Department Directors are responsible for managing their department's fleet of vehicles and equipment. Each Director works to: develop vehicle and equipment replacement schedules, acquire vehicles and equipment; and dispose of vehicles and equipment. The annual expenses for vehicle and equipment replacement shall be budgeted in the Equipment Reserve Fund.

II. POLICY

The equipment replacement schedule will be reviewed and updated annually by City staff. Staff will present a schedule of vehicles and equipment to be replaced each year to the City Council for final approval.

1. The vehicle and equipment replacement schedule will include the following information:
 - a. Age in years
 - b. Usage in hours or miles
 - c. Useful life (based on commonly used standards for municipal vehicles and equipment)
 - d. Cost of maintenance
 - e. Overall condition: mechanical, operating, or safety
 - f. Replacement cost
2. The City Administrator and Finance staff shall review the availability of funds in the Equipment Reserve Fund to replace vehicles and equipment. Staff will meet to rank all items that are requested to be replaced should funds be limited.
3. The purchase of all new vehicles and equipment will be done in accordance with the guidelines outlined in the Purchasing Policy.

END OF POLICY STATEMENT
